

the ultimate washroom

GENESIS™

the ultimate washroom

Introducing the Genesis™ collection of dispensers, featuring a coordinated look that combines elegance and style in a contemporary design. The Ultimate Washroom suite of dispensers from Kruger Products offers the ultimate in Design, Quality and Cost Effectiveness. No longer do washroom dispensers need to look purely functional, Genesis™ adds curves to the standard dispenser's square and boxy image. Concave lenses allow for quick refill checks and the complementary lines convey a stylish presentation. Great washroom systems depend on quality products for cost effectiveness and improved customer satisfaction. Genesis™ not only has great looks, but also features quality products that will make patrons smile. The Genesis™ collection will enhance any décor with your choice of Black or White dispensers with Smoke Grey lenses. The Genesis™ collection provides customers with a superior level of hygiene in stylish fashion.

towel system

The Ultimate Washroom Towel System provides excellent cost-in-use with controlled dispensing and high capacity towels that are easy to load, reducing maintenance refill trips. Titan™² represents the next generation in touchless roll towel dispensing. Both the electronic motion activated and mechanical models help prevent the spread of germs by controlling cross-contamination and improving hand hygiene. Quality towels are a vital part of your hand hygiene program. The Titan™² System features four product quality tiers to choose from making them perfect for all customer budget requirements. The towel offering includes Embassy® Supreme through-air-dried (TAD) towels, Embassy® Premium, White Swan® Classic and Esteem® 100% Natural Towels. Combined with touchless dispensing, our Ultimate Washroom towels protect you and your customers.

GENESIS™ dispensers

Titan™² Electronic

- Prevents the spread of germs
- Improves hand hygiene
- Features four length portion controls
- Two operational settings (wave activated or tear and dry)
- Superior cost-in-use savings
- Controlled dispensing
- See-through for easy refill monitoring

Titan™² Mechanical

- Prevents the spread of germs
- Improves hand hygiene
- Superior cost-in-use savings
- Controlled dispensing
- See-through for easy refill monitoring

Ultra Long Roll Towels (ULRT)

The Ultimate Washroom Towel portfolio includes the longest ULRT in the market today and products that reduce refill trips and packaging waste.

Embassy® Supreme TAD (01269) 1000' Towel

- The softest towel in the market just got longer... 66% longer
- Supreme quality; dries hands more effectively with less towel
- Reduced run-outs providing greater customer satisfaction

EcoLogo™ Certified ULRT

“Go Long and Go Green” with the only ULRTs in the market that are EcoLogo™ certified and are made with 100% Recycled Fiber (88% post-consumer waste fiber).

Embassy® Premium (01169) 1000' Towel

- 25% reduction in packaging and transport costs (when compared to an 800' roll)
- Excellent wet strength for greater application utility and reduced consumption
- Premium absorbency that dries hands effectively

White Swan® Classic (01969) 1200' Towel

- Longest ULRT in the market
- 50% reduction in packaging and transport costs (when compared to an 800' roll)
- Fewest run-outs increasing customer satisfaction

bathroom tissue system

The Ultimate Washroom product suite includes Mini-Max^{®2} and Micro-Max^{®2} bath tissue systems, which feature premium 2-ply tissue for the ultimate in comfort and absorbency. Mini-mizing space requirements while Maxi-mizing capacity, Mini-Max^{®2} holds the equivalent of 10 standard rolls of 2-ply bathroom tissue. Suitable for high traffic use, Mini-Max^{®2} reduces labour costs, pilferage and stub-roll waste. Micro-Max^{®2} is perfect for smaller cubicles and lower traffic environments such as Lodging, Office Buildings, Medical Offices, Health Clubs, Restaurants and wherever proprietors want a less institutional format for their premises. Micro-Max^{®2} holds the equivalent of 6 standard rolls, allowing for increased capacity in a small format. The smoke transparent front on the Mini-Max^{®2} and Micro-Max^{®2} dispenser allows staff to quickly check tissue inventory levels.

GENESIS™ dispensers

Mini-Max^{®2}

- Reduced run-outs increasing customer satisfaction
- Less labour costs and maintenance time
- Holds the equivalent of 10 standard rolls

Micro-Max^{®2}

- Designed for small spaces and premium establishments
- Holds the equivalent of 6 standard rolls
- Black dispenser now available

EcoLogo[™] Certified Bathroom tissue

The Ultimate Washroom bathroom tissue portfolio includes EcoLogo[™] certified bathroom tissue made with 100% recycled fiber (88% post-consumer waste content).

Mini-Max^{®2} tissue (05629)

- Premium quality
- 750' rolls are ideal for high traffic washrooms
- Reduced packaging and waste

Micro-Max^{®2} tissue (05649)

- Premium quality
- 475' rolls
- Reduced packaging and waste

handcare system

The ultimate defence against germs is hand washing and Kruger Products offers a cost effective and innovative handcare product array that helps to reduce the spread of germs and prevents cross-contamination. HandsFresh® Touchless Foam Soap Dispenser has a contemporary style that will look great in any setting. It helps to eliminate cross-contamination by delivering foam soap by simply placing your hand beneath the unit. The HandsFresh® Touchless Foam Soap Dispenser offers improved cost-in-use compared to competitive automated soap systems, reducing per hand wash usage by up to 33%. HandsFresh® products are available in quality formulas ranging from moisturizing Luxury and Anti-Bacterial Foam Soap and Alcohol-Free Sanitizer to economical spray soap formulas. The HandsFresh® formulas are engineered for frequent hand washing. The Luxury Foam soap is formulated at neutral pH and contains emollients that moisturize the skin so hand washing is encouraged while maintaining healthy skin.

HandsFresh® Touchless Soap System

You can "Wave Good-bye to Germs" with the ultimate in touchless dispensing which significantly reduces the risk of cross-contamination. End-user preferred foam hand care products are available in Luxury Lotion, Anti-Bacterial and Alcohol-Free Hand Sanitizer.

- Touchless HandsFresh® refills are boxless and high capacity (1000 ml) reducing packaging waste up to 80%
- HandsFresh® Luxury Foam Soap (03500) – part of the Kruger GreenQuality™ family of products and is Green Seal® certified
- Battery life up to 6x longer than competitive systems
- Intelligent monitoring with LED lights and alarms that indicate low battery and low refill level (after 2,350 hand washes)

Dispense with Germs... Kruger Products is as dedicated as you are to keeping your washrooms clean. Selecting the Ultimate Washroom proves your commitment to achieving the highest standard of hygiene away-from-home. Remember that drying your hands effectively reduces the risk of bacterial transfer and prevents the spread of disease. Dry your hands with Embassy® Supreme and Embassy® towels and significantly reduce your exposure to germs. The hygieneChoice® logo designates our product recommendation to maximize hygiene and increase personal protection.
