BALANCING PRODUCTIVITY AND COST EFFICIENCIES

High-quality products further support a clean and efficient work place.

-  Sanitary manufacturing and food processing environments are a must.
-  Specifically engineered for single hand use in busy environments, and with proven reliability and low maintenance requirements, Kruger Products' dispensing systems will enhance your productivity and aid in cost control.

HOW KRUGER PRODUCTS SUPPORTS THE MANUFACTURING AND FOOD PROCESSING INDUSTRIES

EASE OF USE IS KEY

Touchless dispensers make it easy to work without disruption and, when paired with quality paper products, help meet sanitary and health and safety requirements and mitigate lost productivity.

HYGIENE IMPORTANCE

Enhance protocols to prevent microbial and microbiological cross-contamination through use of premium quality tissue and paper products, along with effective dispensing solutions.

COST-IN-USE BENEFITS

High-quality products mean less wasted product, less refill maintenance required, and less product is needed overall (for example, using one higher quality towel instead of multiple of a lesser quality).

SUSTAINABILITY MATTERS

Strengthen your sustainability efforts with Kruger Products' FSC®- and/or ECOLOGO®-certified products without sacrificing on productivity or performance.
