# BALANCING HYGIENIC TOWEL AND TISSUE NEEDS WITHIN BUDGETS

Maintain clean and hygienic facilities, while operating within tight budgets.

- ⊕ There are great expectations on healthcare standards when it comes to the clinical environment. Kruger Products offers a line of products for all hospital/clinic areas, from patient rooms and restrooms to nursing stations and foodservice areas.
- ⊕ With hospitals continuously being asked to operate within tight budgets, using superior quality towel, tissue and napkins that offer better strength and absorbency means less product is needed for the job so overall consumption is reduced.

## HOW KRUGER PRODUCTS SUPPORTS THE HEALTHCARE INDUSTRY

### EASE OF USE IS KEY

Touchless dispensers make it easy to work without disruption and, when paired with quality paper products, help meet sanitary and health and safety requirements and mitigate lost productivity.

### HYGIENE IMPORTANCE

Enhance protocols to prevent microbial and microbiological cross-contamination through use of premium quality tissue and paper products, along with effective dispensing solutions.

### COST-IN-USE BENEFITS

High-quality products mean less wasted product, less refill maintenance required, and less product is needed overall (for example, using one higher quality towel instead of multiple of a lesser quality).

### SUSTAINABILITY MATTERS

Strengthen your sustainability efforts with Kruger Products' FSC®- and/or ECOLOGO®-certified products without sacrificing on productivity or performance.
