

# WORKS<sup>®</sup> WIPERS

The Kruger Products portfolio of WORKS<sup>®</sup> wipers is designed to meet the needs of most wiping applications from critical cleaning (i.e. low-lint environments such as labs) to simple wipe-ups (wipe and toss). Our WORKS<sup>®</sup> line offers strength, absorbency and versatility and by utilizing the best wiper for your specific application, you will have the most cost-effective wiping solution for your business.

# ALL-WORKS® K80 & K70 WIPERS

These premium wipes are the strongest, most durable and versatile wipers available. They can be used in a wide variety of applications, from general clean up to more controlled environments that require a lint-free, solvent-resistant wiper such as hospitals, labs and automotive paint booths.

## ALL-WORKS® K80 WIPERS

The **All-Works® K80** wipers are the strongest wipe available, wet, or dry. The creped material makes a super strong, soft and absorbent wipe that can absorb four times its weight in liquid while keeping its soft texture. These durable wipes can be rinsed and re-used so each wipe lasts longer, which makes them a convenient alternative to laundered shop towels. Great for mechanic work and engine repair, the **All-Works® K80** wipers stand up to grease and grime. Plus, they are virtually lint-free and solvent resistant.

## ALL-WORKS® K70 WIPERS

These absorbent wipes have excellent strength when wet or dry and are a disposable alternative to laundered shop towels. They stand up against grease and grime, making them perfect for mechanical and engine work. **All-Works® K70** wipers are virtually lint-free and contain zero additives, which can dissolve and cause streaks. They are available in blue or white, making it easy to keep track and minimize cross-contamination.

CODE/COLOUR	VALUE TIER	DESCRIPTION	SIZE (LxW)	SHEETS PER CASE	CASES/PALLET

02361

## ALL-WORKS® K60 WIPERS

**All-Works® K60** wipers are hydroentangled, which results in a low-lint wipe that does not contain any glues or binders, making them a perfect solution for all-purpose cleaning that won't leave streaks. These strong and absorbent wipes are excellent for light-duty jobs and all-purpose cleaning. They are also a cost-effective alternative to paper-type products as fewer wipers are needed for each clean-up.

## FOOD WORKS®

The **Food Works®** general purpose food service wiper is washable, rinsible, absorbent and reusable. It is low-linting and has built in anti-microbial protection to help operators keep their kitchens cleaner between servicing. The **Food Works®** wiper has been created for the specific needs of the food service market, providing durability and strength for quick and efficient wiping.

# ALL-WORKS® K40 & GENERAL WORKS® WIPERS

These cost-effective wipers are ideal for general clean-up and are stronger, more absorbent and longer lasting than kitchen towel and roll-towel options.

## ALL-WORKS® K40 WIPERS

These highly absorbent wipers are low-linting, making them ideal for preparing surfaces and cleaning spills such as oil, grease, water, etc. **All-Works® K40** wipers are stronger, longer lasting and more absorbent than paper-type products and make a great alternative to rags. Created using a hydroentangled process, which eliminates the need for glue or binders, **All-Works® K40** wipers ensure no residue or contaminants are left behind.

**All-Works® K40** wipers are available in popup, quarter fold, and center pull formats. Racks are available for mounting popup and centre pull cartons.

## GENERAL WORKS®

These embossed, multi-purpose paper wipers provide an economical solution for users in many industries. **General Works®** wipers are pulp based, therefore absorbent and able to soak up spills quickly.
